PRIVATE LABEL PROCESS

A clear workflow from product selection to shipment

01 Product Selection

Choose a ready-stock format or discuss a custom formula.

02 Project Confirmation

Confirm formula, specification, quantity and target market.

03 Packaging Design

Develop logo, label, carton and packaging requirements.

04 Sample Approval

Review product and packaging samples before production.

05 Production & QC

Proceed with production, inspection and documentation.

06 Global Shipment

Arrange shipping based on destination and delivery terms.

LET'S BUILD YOUR NEXT PRODUCT
